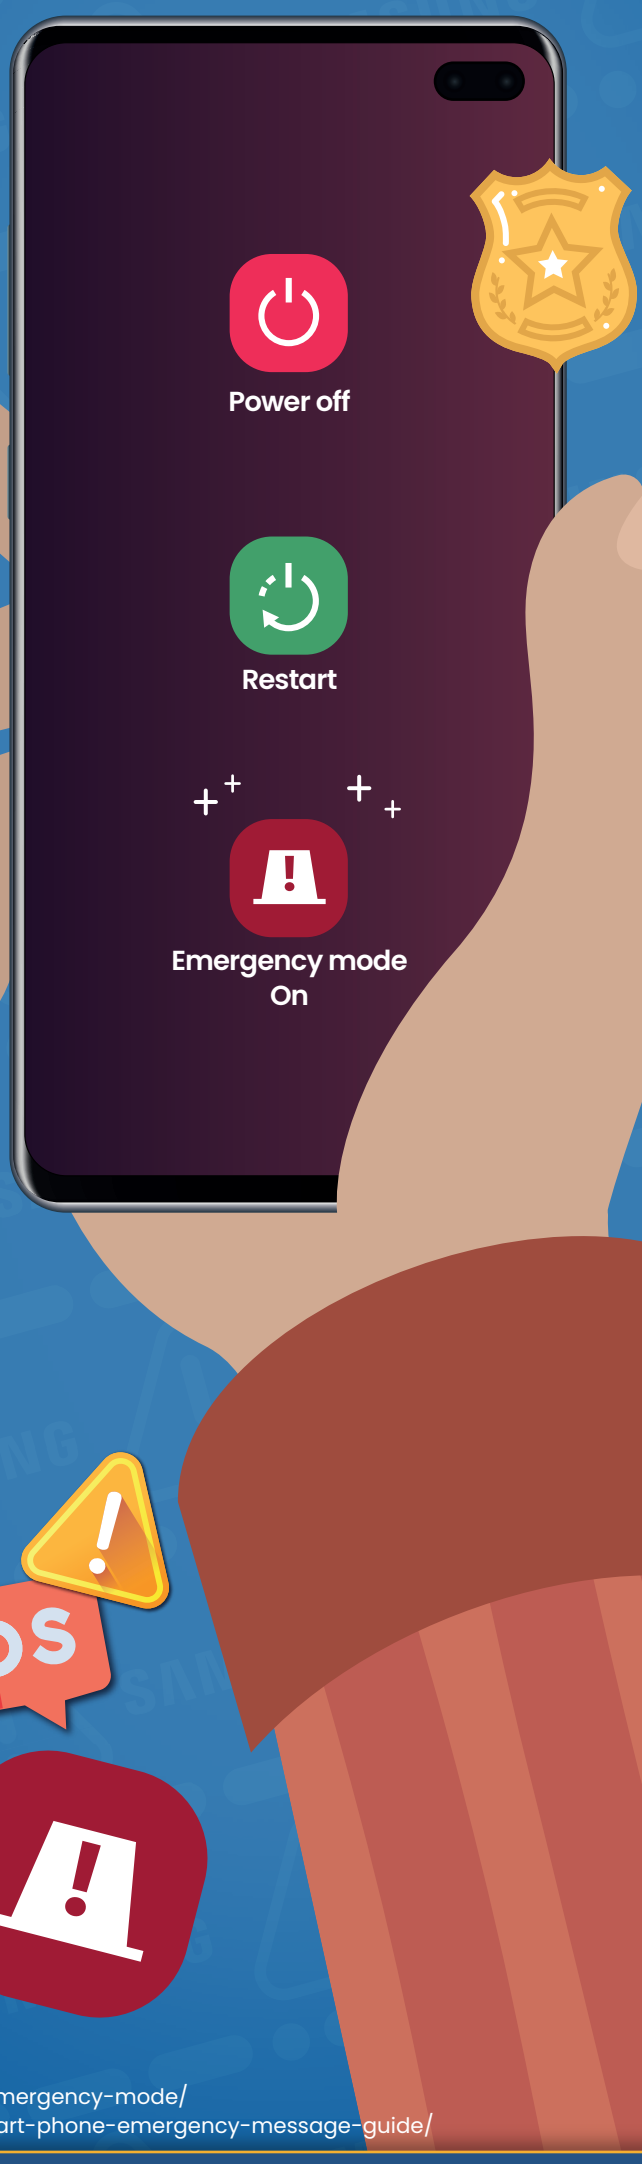
At National Online Safety, we believe in empowering parents, carers and trusted adults with the information to hold an informed conversation about online safety with their children, should they feel it is needed. This guide focuses on one issue of many which we believe trusted adults should be aware of. Please visit www.nationalonlinesafety.com for further guides, hints and tips for adults.

How to Set up EMERGENCY MODE on Your Samsung

Emergency mode conserves your Samsung phone's power to extend the battery life for as long as possible. Although other areas of your device may be disabled or run slower (to help save energy in emergency mode), you will still be able to contact an emergency service number, call your emergency contacts and share your location via text messages.

How to Turn on Emergancy Mode

1. Press and hold the power button
2. Tap 'Emergency Mode'
3. If you are using emergency mode for the first time, you will need to agree to the terms and conditions
4. Tap 'Turn on'
5. Your Samsung will now display the emergency mode home screen



How to turn on SOS messages

1. Go to 'Settings'
2. Tap 'Advanced Features'
3. Tap 'Send SOS Messages'
4. Agree to the terms and conditions
5. Tap 'Add' to add a contact to your emergency contacts
6. Tap 'Done' to save your changes

Alerting Your Emergency Contacts

Your Samsung's SOS feature quickly notifies your specified contacts if you have an emergency. When this feature is enabled, you can press the lock button three times to automatically send an SOS message (including a link to your location) to your emergency contacts. You also have the option to send a photo and/or voice message to your emergency contacts, providing them with more information.
