

## A Level and GCSE Exam Success

Beechen Cliff students have celebrated a strong set of A Level and GCSE results this summer.

### Sixth Form Students

At A Level over a third of grades achieved were A\*/A grades and 66% of grades were at A\*-B, above the national average this year.

Students studying the vocational courses also achieved great results with an average grade of a Distinction.

Around 140 students are now going to take up places at university with three quarters of students securing their first choice. Of these, seven students are off to Oxbridge or to study medicine. Other students are moving onto apprenticeships, college, employment or a gap year.

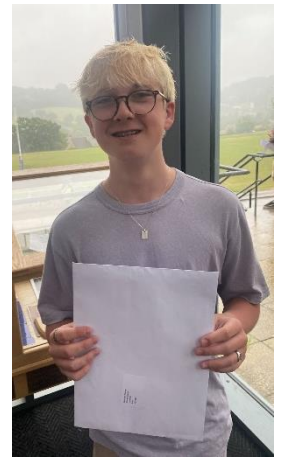

## Year 11 Students

At GCSE over 80% of grades achieved were grades 9-4 and over 40% were grades 9-7, well above the national average this year.

82% of students achieved a grade 4 or above in both English and Maths and 78% of students achieve at least 5 grades of that standard or above including English and Maths.

Students are now moving on to Sixth Form or college.

Headteacher Tim Markall said “we are really proud of our students’ achievements. They have demonstrated remarkable resilience and character through the pandemic and thoroughly deserve their success. Their brilliant achievements are a reflection of their hard work and commitment to their studies. We now wish them all the best for their next steps in education, training or employment.

I would also like to thank our teachers who have worked incredibly hard to support our students through their GCSE and A Level courses, and to help them prepare for exams. Their commitment has been incredible and I know they are delighted to see our students achieve this success too.”
