

## BEECHEN CLIFF

### School Led Tutoring at Beechen Cliff School 2022/23

#### **What is School Led Tutoring?**

School Led Tutoring is part of the National Tutoring Programme 2022/23. Eligible, state-funded schools have received a ring-fenced grant to source their own tutoring provision for disadvantaged and vulnerable pupils who have missed the most education due to COVID 19. Tutoring can be led by teachers, teaching assistants or other professional educators (Tutors without QTS will need to complete a training course.) providing intensive and personalised academic support to small groups of pupils.

#### **Who is it aimed at?**

Research showed that vulnerable pupils (those eligible for free school meals within the last 6 years) were behind on both reading and mathematics when they returned to school in autumn 2020. The grant is designed to help close the gap between disadvantaged and vulnerable pupils and their peers and schools are expected to prioritise these pupils. However, schools have the flexibility to decide which pupils will benefit most from this grant. At Beechen Cliff we have prioritised KS4 but all years will have access to tutoring.

#### **How is it funded?**

In 2022/23 schools will contribute 40% and the remaining 60% will come from the school's tutoring grant. In 2023/24 this will reduce to 25%.

#### **Group Sizes**

Research indicates that groups of three are effective both in terms of outcomes and value for money. However, it is up to the school to determine what group sizes are best for the needs of the pupils.

## Length of Sessions

At Beechen Cliff School, in line with EEF research into effective tutoring models, we have opted for 1hr sessions over a 15 week period in groups of around 3 students. The sessions agreed so far are as below:
