- A candidate who arrives after the start of the examination should be allowed the full working time for the examination provided adequate supervision arrangements are in place. A candidate will be considered very late if they arrive more than one hour after the awarding body's published starting time for an examination which lasts one hour or more.
- For examinations that last less than one hour, a candidate will be considered very late if they arrive after the awarding body's published finishing time for the examination.

Where a candidate arrives very late for an examination the Examinations Officer will:

- Send the script to the examiner/awarding body in the normal way;
- Send a full written report to the awarding body on Form JCQ/VLAREport on Candidate Admitted Very Late to Examination Room, using CAP, as soon as possible and in any event within 7 days from the date of the relevant examination.
- Warn the candidate that the awarding body is unlikely to accept the work.

The report must contain the following information:

- The reason the candidate arrived late, including any details of special arrangements made for the candidate to reach the centre;
- the actual starting and finishing times of the examination;
- the time the candidate started the examination;
- the time the candidate finished the examination;
- a statement on whether security may have been broken due to the candidate arriving late, including information about the extent to which the candidate was under supervision from the actual starting time of the examination.

### **Candidate Absence**

Should a candidate be identified as being absent from an examination then the school will take the following action:

- The candidate will be contacted immediately as to their whereabouts and as far as possible arrangements should be made to ensure their immediate arrival.
- Should the candidate be absent from a timetabled written examination for an acceptable reason, the candidate may be eligible for special consideration. This is where an adjustment can be made to a candidates' overall grade by the awarding body.
- If a candidate fails to attend an examination without a good valid reason, the school will invoice for the cost of the examinations missed.
- The candidate and their parents may be requested to complete Form 14 Self Certification form or provide other suitable evidence. Form 14 Self Certification is available from reception.

#### **Special Consideration** (reference JCQ A guide to the special consideration process)

- Candidates will be eligible for special if they have been fully prepared and have covered the whole course but performance in the examination, or in the production of coursework or non-examination assessment, is materially affected by adverse circumstances beyond their control (SC 2,1)
- Special consideration must be applied for at the time of the assessment (SC 2)
- Candidates will not be eligible for special consideration if preparation for, or performance in the examination is affected by the reasons detailed in the JCQ publication  
<https://www.jcq.org.uk/exams-office/access-arrangements-and-special-consideration/>
- The Head of Centre is responsible for ensuring that relevant staff are directed to the annually updated JCQ publication 'A guide to the special consideration process'. The Head of Centre also ensures that should a candidate meet the published criteria, an application for special consideration will be submitted to the awarding body by the EO.
- Senior leaders must sign appropriate evidence to support all applications.
- The EO will refer to the guidance to establish whether a candidate is or is not eligible for special consideration. Where a candidate is eligible then the EO will submit the application to the awarding body by the published deadline for applications.
- For the **Internal Appeals Procedure (Access Arrangements and Special Considerations and other Administrative issues**, please see below.

A note will be taken of when the exam restarted and a report for special consideration sent to the awarding body. Candidates will be permitted the full working time set for the examination.

## **Controlled assessments, coursework, non-examination assessments and portfolios of evidence**

### **What is controlled assessment?**

Controlled assessments are assessments that usually take place during a normal timetabled lesson in the student's normal classroom. For some subjects the students are allowed to prepare for the assessment by writing notes and draft versions. The subject teacher will advise the student what is and is not permitted to be brought into the assessment. These assessments are usually conducted under examination conditions and the students will work in silence for the duration of the task, which can be over a series of lessons. In practical subjects the controlled assessment may be over a period of weeks and total 20 to 30 hours depending on the subject.

The results of these assessments count towards the final examination for the subject and so it is very important that the students take these assessments seriously and undertake preparation as they would for the final examinations.

Changes in the rules around controlled assessments mean that students may not be able to retake or improve their assessments. If they fail, they will need to sit another assessment that will have a different title.

### **Preparing for Controlled Assessment:**

The requirements for each subject are different, but generally teachers will need to:

- Teach an overview of the chosen topic/task before students set to work
- Give students the context they need to understand the topic
- Teach students any skills they will need for their tasks, such as research skills
- Support and guide students throughout the research, drafting and write-up stages
- Remind the students that they can **only** write in **BLACK** ink. Drawings can be done in pencil.
- Outline to the students what can and cannot be brought into a controlled assessment.
- Ensure that students are aware of the time for each assessment
- ensures that appropriate instructions for conducting internal assessments are followed.
- ensures that candidates are aware of JCQ and awarding body information for candidates on producing work that is internally assessed (coursework, non-examination assessments, social media) prior to assessment taking place.
- Ensure that any student who is entitled to special arrangements e.g. access to a word processor, reader, or extra time is aware of these arrangements and that the students know **HOW** to benefit from these arrangements as they have used them as part of their normal way of working. The SENCO will advise which students are entitled to access arrangements.
- ensures that candidates are informed of their centre assessed marks in line with the internal appeals procedure.

## **Policies**

### **Malpractice**

Reference to **GR** and **SMPP** relate to relevant sections of the current JCQ documents **General Regulations for Approved Centres 2025-2026** and **Suspected Malpractice: Policies and Procedures 2025-2026**.

The centre will take all reasonable steps to prevent the occurrence of any malpractice (which includes maladministration) before, during and after assessments have taken place. The centre will inform the awarding body immediately of any alleged, suspected or actual incidents of malpractice or maladministration involving a candidate or a member of staff, by completing the appropriate documentation. Will at the instruction of the awarding body, ensure that evidence of any alleged or suspected malpractice or maladministration is gathered in accordance with the current KCQ document Suspected Malpractice - Policies and Procedures.

Malpractice covers both “malpractice’ and ‘maladministration’ and means any act, default or practice which is:

- a breach of the Regulations, and/or
- a breach of awarding body requirements regarding how a qualification should be delivered, and/or
- a failure to follow established procedures in relation to a qualification.

which:

- gives rise to prejudice to candidates, and/or
- compromises public confidence in qualifications, and/or
- compromises, attempts to compromise or may compromise the process of assessment, the integrity of any qualification or the validity of a result or certificate, and/or
- damages the authority, reputation or credibility of any awarding body or centre or any officer, employee or agent of any awarding body or centre (SMPP)

The Head of Centre in consultation with the link SLT is responsible for investigating suspected malpractice and maladministration.

### **Candidate malpractice**

‘Candidate malpractice’ normally involves malpractice by a candidate in connection with any examination or assessment, including the preparation and authentication of any controlled assessments, coursework or non-examination assessments, the presentation of any practical work, the compilation of portfolios of assessment evidence and the completion of any examination. (SMPP)

### **Centre staff malpractice**

‘Centre staff malpractice’ means malpractice committed by:

- a member of staff, contractor (whether employed under a contract of employment or a contract for services) or a volunteer at a centre, or
- an individual appointed in another capacity by a centre such as an invigilator, a Communication Professional, a Language Modifier, a practical assistant, a prompter, a reader or a scribe. (SMPP 2)

The centre will:

- take all reasonable steps to prevent the occurrence of any malpractice (which includes maladministration) before, during and after assessments have taken place.
- inform the awarding body **immediately** of any alleged, suspected or actual incidents of malpractice or maladministration, involving a candidate or a member of staff, by completing the appropriate documentation.
- as required by an awarding body, gather evidence of any instances of alleged or suspected malpractice (which includes maladministration) in accordance with the current JCQ document **Suspected Malpractice - Policies and Procedures** and provide such information and advice as the awarding body may reasonably require.
- Robust processes to prevent and identify malpractice, as outlined in section 3 of the JCQ document **Suspected Malpractice: Policies and Procedures**

This includes ensuring that staff involved in the delivery of assessments and examinations understand the requirements for conducting these as specified in the following JCQ documents and any further awarding body guidance:

- General Regulations for Approved Centres
- Instructions for conducting examinations (ICE)

- Instructions for conducting coursework
- Instructions for conducting non-examination assessments
- Access Arrangements and Reasonable Adjustments
- A guide to the special consideration process
- Suspected Malpractice: Policies and Procedures (this document)
- Plagiarism in Assessments
- AI Use in Assessments: Protecting the Integrity of Qualifications
- Post Results Services June 2025 and November 2026
- A guide to the awarding bodies' appeals processes

Students are advised how to avoid committing malpractice in examinations/assessments by attending assemblies during KS4 and via an examinations booklet which contains all the relevant JCQ notices for students taking NEA (non examination assessments) and written examinations.

### **Artificial intelligence (AI)**

Artificial intelligence (AI) tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative chatbots such as ChatGPT and Google Bard. AI has many uses to help pupils learn, but may also lend itself to cheating and plagiarism.

Pupils may not use AI tools:

- During assessments, including internal and external assessments, and coursework.
- To write their assignments, where AI-generated text is presented as their own work.

Staff should:

- Be aware that AI tools are still being developed and should use such tools with caution as they may provide inaccurate, inappropriate or biased content;
- Make students aware of the risks of using AI tools and that they need to appropriately reference AI as a source of information to maintain the integrity of assessments.

For more information on AI misuse, see guidance from JCQ on AI use in assessments [AI Use in Assessments: Protecting the Integrity of Qualifications](#)). Any misuse of AI tools may be treated as malpractice.

### **Escalating suspected malpractice issues**

Once suspected malpractice is identified, any member of staff at the centre can report it using the appropriate channels. (SMPP) If necessary the member of staff must remove any unauthorised material from the candidate or detail the nature of the malpractice on the incident log supplied at the time of the assessment. The candidate must be warned that the member of staff has witnessed malpractice and be allowed to continue with the assessment. A statement must be made by the person reporting the malpractice and any other members of staff who may have witnessed the suspected malpractice. These statements must be submitted to the Exams Officer as soon as possible.

### **Reporting suspected malpractice to the awarding body**

The Head of Centre will notify the appropriate awarding body immediately of all alleged, suspected or actual incidents of malpractice, using the appropriate forms, and will conduct any investigation and gathering of information in accordance with the requirements of the JCQ document Suspected Malpractice: Policies and Procedures (SMPP 4.1.3)

The head of centre will ensure that, where a candidate is a child or an adult at risk and is the subject of a malpractice investigation, the candidate's parent/carer/ appropriate adult is kept informed of the progress of the investigation (SMPP 4.1.3)

Form JCQ/M1 will be used to notify an awarding body of an incident of candidate malpractice. Form JCQ/M2 will be used to notify an awarding body of an incident of suspected staff malpractice/maladministration (SMPP 4.4, 4.6)

Malpractice by a candidate discovered in a controlled assessment, coursework or non- examination assessment component prior to the candidate signing the declaration of authentication does not need to be reported to the awarding body but will be dealt with in accordance with the centre's internal procedures. The only exception to this is where the awarding body's confidential assessment material has potentially been breached. The breach will be reported to the awarding body immediately (SMPP 4.5)

If, in the view of the investigator, there is sufficient evidence to implicate an individual in malpractice, that individual (the candidate or the member of staff) will be informed of the rights of accused individuals (SMPP)

Once the information gathering has concluded, the head of centre (or other appointed information-gatherer) will submit a written report summarising the information obtained and actions taken to the relevant awarding body, accompanied by the information obtained during the course of their enquiries (5.35)

Form JCQ/M1 will be used when reporting candidate cases; for centre staff, form JCQ/M3 will be used (SMPP).

The awarding body will decide on the basis of the report, and any supporting documentation, whether there is evidence of malpractice and if any further investigation is required. The Head of Centre will be informed accordingly (SMPP 5.40)

#### **Communicating malpractice decisions**

Once the awarding body has made a decision then this will be communicated directly to the Head of Centre. The Head of Centre will then arrange for the student/parents to be informed of the decision and the nature of any sanctions imposed. If there is a right to appeal then this will also be communicated to the individuals involved. For further information regarding the submission of appeal, please refer to the **JCQ document A guide to the awarding bodies' appeals processes**.

#### **Exam Contingency Plan**

Each centre has its own Exam Contingency Plan specific to their site. All Trust schools will follow the procedure below.

##### **Severe Weather / School closure**

In the event the school is closed due to adverse weather or other emergency and provided it is safe to do so the school will be open for **public examinations only** with a skeleton staff to oversee the examinations. Provided it is safe to do so, pupils living locally should make every effort to attend their examination.

Information relating to public examinations in such circumstances will be on the website and a message left on the school's answering service.

- In the event of an emergency at the school, the Head of Centre along with SLT will liaise with the relevant awarding body and follow their Contingency Plan. Should there be a change to the venue, students will be notified via the school website. If due to bad weather the school remains open but candidates are unable to make it into school and it is not possible to relocate the venue of the examination, then an application for Special consideration will be made by the Exams Officer.
- In the event of any disruption to any public examination, the awarding bodies will be informed as soon as it is practically possible.

#### **Lockdown Policy (Exams)**

Please also refer to the MNSP **Lockdown Policy September 2025**

The purpose of the policy is to respond to an external or internal incident which has the potential to pose a threat to the safety of staff and students in the school.. Procedures should aim to minimise disruption to the learning environment whilst ensuring the safety of all students and staff. Lockdown procedures may be activated in response to any number of situations, but some of the more typical might be:

- a reported incident/civil disturbance in the local community (with the potential to pose a risk to staff and students in the school).
- an intruder on the school site (with the potential to pose a risk to staff and students).
- a warning being received regarding a risk locally, of air pollution (smoke plume, gas cloud etc).
- a major fire in the vicinity of the school.
- the close proximity of a dangerous dog roaming loose.

When a **partial** lockdown is required *prior to an examination*, the following procedures will be followed by all Trust schools  
Invigilators will:

- Instruct waiting students to enter the examination room or remain in the room they have registered.
- Instruct students to sit in silence in examination conditions.

When a **partial** lockdown is required *during* an examination, the following procedures will be employed by all Trust schools.  
Invigilators will:

- tell candidates to stop writing immediately and close their answer booklets.

- collect the attendance register.
- make a note of the time when the examination was suspended
- instruct candidates to remain silent.
- Communicate (via mobile phone/walkie talkie) the situation to the Exams Officer (ensuring that all mobile phones/walkie talkies are on silent and non-vibrate mode)

When a **full** lockdown is required *prior* to an examination, the following procedures will be followed by all Trust schools

Invigilators will:

- instruct waiting students to enter the examination room or remain in the room they have registered.
- instruct students to sit in silence in examination conditions away from any doors or windows
- all internal and external doors and windows must be locked.
- draw any blinds.
- take the register and contact the exams officer to notify them of any absences.
- invigilators and students stay in lockdown until it has been listed by a member of the SLT or the emergency services.

When a **full** lockdown is required *during* an examination, the following procedures will be followed by all Trust schools

Invigilators will:

- advise the students to stop writing and close their papers.
- return any students that are outside the exam room with an Invigilator to the examination room as soon as possible.
- instruct students to sit in silence in examination conditions away from any doors or windows.
- all internal and external doors and windows must be locked.
- draw any blinds.
- take the register and contact the Exams Officer to notify them of any absences.
- Invigilators and students stay in lockdown until it has been listed by a member of the SLT or the emergency services.

Should the **full** lockdown alarm sound immediately following an examination, invigilators will stop dismissing students from the examination and instruct candidates who have left to re-enter the examination room. The instructions above will then be followed.

Once the lockdown has been lifted and if advised to by a member of SLT, if there is sufficient time, candidates may be allowed to restart their examination (following JCQ regulations). Candidates will be allowed the full working time for the examination, the finish time will be recalculated and a note of how long the lockdown lasted recorded on the incident log. The incident log will be forwarded to the Exams Officer. The Exams Officer will notify the awarding body and apply for special consideration should candidates have been disadvantaged.

### **Internal Appeals Procedure (Internal Assessment Decisions)**

This school is committed to ensuring that the assessment process is fair, consistent and in accordance with the specification for the qualification concerned..

Some qualifications contain components/units of non-examination assessment, controlled assessment and/or coursework which are internally assessed or marked by teaching staff and then internally reviewed or moderated by other Trust schools. The marks awarded (the internal assessment decisions) which contribute to the final grade of the qualification are then submitted by the deadline set by the awarding body for external moderation. External moderation is carried out by the awarding body and can result in marks going up or down or staying the same, they are therefore provisional. Before submitting marks to the awarding body, centres inform students of their marks and at this point a student can request a review of the centres marking.

If the appeal is for a candidate under the age of 18, then the parent can start the process. If an appeal is lodged for a candidate 18 years or over, then the appeal must be made by the candidate and no correspondence can be entered into with the parent.

The Head of Centre will

- ensure that whenever teaching staff mark candidates work that this is done fairly, consistently and in line with the awarding bodies specification and subject-specific associated documents.

- ensure that all relevant staff follow the *Non-Examination Assessment Policy*. This details the procedures related to centre delivered qualifications which includes the quality insurance and internal standardisation processes which teaching staff are required to follow.
- ensure that candidates' work will be marked by staff who have appropriate knowledge, understanding and skill, and who have been trained in this activity and do not have any potential conflicts of interest
- commit to ensuring that work produced by candidates is authenticated in line with the requirements of the awarding body (where more than one subject teacher/tutor is involved in marking candidates' work, internal moderation and standardisation will ensure consistency of marking)
- notify candidates of their marks prior to submission to the awarding body so that they can request a review of the centre's marking. The appeal must be made in writing to the School's Exams Officer within 2 weeks of the notification of the grade for the assessment. The grounds for the appeal must be clearly stated. The candidate can be supported in the presentation of their case by a parent/carer/friend. The grounds for appeal relate only to the procedures used in arriving at internal assessment decisions or the production of externally assessed work and do not apply to the judgement themselves.
- on request, promptly supply copies of material and the mark scheme or assessment criteria, plus any additional materials specific to the course to assist them in considering a request for review. Should the original copies be requested these will be viewed under supervised conditions.
- following a request, nominate a senior member of staff, usually the Exams Officer (EO), or a member of SLT, to lead the enquiry provided that they have played no part in the original assessment process.
- The review will be carried out by an assessor who has appropriate competence and where appropriate by another Trust school. The assessor will have had no previous involvement in the assessment of that candidate for that component and no personal interest in the outcome of the review. The investigation will examine the evidence for the procedures used in the assessment, decide upon their appropriateness and that the procedures have been properly followed as required by the Awarding Body concerned. The enquiry will be completed within 5 days of receipt of the appeal. Should the investigation take longer, then the lead investigator will notify the parent in writing of the need to extend the time period for the investigation.
- ensure that the reviewer marks the component consistently and in line with the standard set by the centre.
- will have the final decision should there be a disagreement on the mark to be submitted to the awarding body.
- ensure that the student/parent/carer is informed in writing of the outcome of the review and that a written record of the review is kept and made available to the awarding body upon request.
- ensures that the awarding body is kept informed if the centre does not accept the outcome of the review

#### **Appeals against decisions to reject a candidate's work on the grounds of malpractice**

- If there are any doubts about the authenticity of a candidate's work or irregularities are identified in a candidate's work before the candidate has signed the declaration of authentication and malpractice, the school will notify the candidate in writing of their decision not to mark the work. The student, parent or guardian of a candidate has the right to appeal against the decision. The appeal must be put in writing to the Exams Officer within 3 working days of the notification letter.

#### **Internal Appeals Procedure (Reviews of Results and Appeals)**

Post results services are available following the issue of provisional results. Should a candidate or centre staff be concerned that a result may not be accurate, there are three post results services that can be applied for.

Candidates will be written prior to the issuing of results to advise them of the arrangements for post-results services. Candidates will be advised of the arrangements for collection of results and that senior members of centre staff will be available immediately after the publication of results so that results can be discussed and options for appeal can be discussed. Candidates will also be made aware of internal deadlines for requesting a service and any fee that is charged by the school for each service.

If the appeal is for a candidate under the age of 18, then the parent can start the process. If an appeal is lodged for a candidate 18 years or over, then the appeal must be made by the candidate and no correspondence can be entered into with the parent.

For written examinations, the services available are:

- Clerical re-check - This is the only service that can be requested for multiple choice tests.
- Review of Marking

- Priority Service 2 (Review of Marking) - This service is available for externally assessed components of both unitised and linear GCE A-Level specifications, it is also available for Level 3 Vocational and Technical qualifications.
- Service 3 (Review of moderation). This service is only available if external moderation has resulted in a change to the internally assessed submitted marks. This service is also not available to individual candidates.

#### **Access to Scripts (ATS)**

- After the release of results, candidates may ask subject staff to request the return of written exam papers within the published deadline.
- An administration fee may be charged by the school should the Head of Department not support the return of the scripts.
- Centre staff may also request scripts for investigation or for teaching purposes. In either case the consent of candidates must be obtained.

#### **Where a concern is raised regarding the accuracy of a particular result the school will:**

- look at the marks awarded for each component alongside any mark schemes, relevant result reports and grade boundary information, to determine whether the concern is justified.
- where a university place is at risk, consider whether a Priority Service review of marking is justified (this will be dependent on the qualification).
- advise the candidate to inform the university or college that a review of marking has been submitted to the awarding body.
- obtain the written consent of the candidate (completion of the relevant JCQ form) prior to submitting a review of marking or clerical check. This consent can only be obtained following the publication of provisional results. Candidates are to be advised that on appeal their overall grade may be lower, higher or stay the same. Any request for a review of marking must be made before the internal deadline set by the centre.
- A request for a re-moderation of internally assessed work may be submitted without the consent of the group of candidates.
- The cost of EARs (enquiries about results) will be paid by the department unless the application is not supported by the Head of Faculty, in which case the candidate will pay the fees.
- All processing of EARs will be the responsibility of the Exams Officer following the JCQ guidance.

#### **Actions in the event of a disagreement**

Should the candidate disagree with a decision not to support a clerical re-check, review of marking or a review of moderation the student may submit the required written consent and the required fee by the deadline set by the centre. The centre will then submit a review on the students behalf.

A review of moderation cannot be undertaken on the work of an individual candidate or the work of candidates not in the original sample submitted for moderation. A review of moderation cannot be requested if the internally assessed marks have been accepted without change by the awarding body.

#### **Internal Appeals Procedure (Access arrangements, special consideration and other administrative issues)**

The school will:

- Comply with the principles and regulations governing access arrangements and reasonable adjustments as set out in the **JCQ publication Access Arrangements and Reasonable Adjustments 2024-2025**
- ensure that all staff who manage and implement access arrangements and reasonable adjustments are aware of the requirements and are appropriately supported and resourced.
- provide access to suitable courses. Through the access arrangements process submit applications for reasonable adjustments and make reasonable adjustments to the service the centre provides to students with a disability.

[Access Arrangements, Reasonable Adjustments and Special Considerations](#)

## Special consideration

Special consideration is given to a candidate who is affected by adverse circumstances which are beyond their control **at the time of assessment**. Special consideration is applied for when the issue or event has had or is likely to have had an adverse effect on the candidates ability to take an assessment or demonstrate their normal level of attainment in an assessment.

It is the students responsibility to:

- alert the schools Exams Officer or any illness, bereavement, trauma, or event that has otherwise disadvantaged or disturbed them during an exam.
- support any special consideration claim with appropriate evidence within seven days of the exam.

All evidence must be supported by appropriate evidence signed by a member of SLT. The Exams Officer will make a special consideration application to the relevant awarding body within 2 days of receipt of the application. Centres will follow JCQ guidance relating to special consideration.

[A guide to the Access Arrangements, Reasonable Adjustments and Special Consideration](#)

## Actions in the event of a disagreement

Should the school not support a specific access arrangement/reasonable adjustment or to apply for special consideration (in circumstances where a candidate does not meet the criteria for, or there is no evidence/insufficient evidence to support the implementation of an access arrangement/reasonable adjustment or the application of special consideration) then the candidate has a right to challenge this.

If a candidate who is the subject of the relevant decision (or the candidate's parent/carer) disagrees with the decision made and reasonably believes that the centre has not complied with its responsibilities or followed due procedures, a written request setting out the grounds for appeal should be submitted. This should be submitted to the Head of Centre in the first instance and within 10 days of being notified.

The Head of Centre will consult the relevant JCQ documentation to decide whether the school has complied with the guidance and regulations governing access arrangements and special consideration. The student will be informed of the decision within 5 working days of the appeal being received.

If the appeal is for a candidate under the age of 18, then the parent can start the process. If an appeal is lodged for a candidate 18 years or over, then the appeal must be made by the candidate and no correspondence can be entered into with the parent.

## Equalities Policy (Exams)

- All exam centre staff must ensure that they meet the requirements of any equality legislation.
- The centre will comply with the legislation, including making reasonable adjustments to the service that they provide candidates, in accordance with requirements defined by the legislation, awarding bodies, and JCQ. Please refer to the localised centre policy Equalities Policy (Exams) 2024/2025
- Reference can be made to the School Equality Act Statement available on the website for policy on Disability.
- Please refer to the localised centre policy for the criteria the school uses to award and allocate word processors for examinations and assessments.

### Making a complaint

Should a student parent or carer raise a concern with regards to the centre's delivery of the administration of a qualification, the school will attempt to resolve these informally in the first instance. Concerns can be raised by speaking to the Exams Officer or Head of Centre at the school. If the complainant is dissatisfied with the complaint, they can formally raise a complaint by following the trust Complaints Policy 2024-25.

Staff working within Trust school are made aware of their duty to report concerns relating to the conduct of examinations. Whistleblowing is encouraged in schools and the head of centre and governing body aim to create a culture where staff and students are encouraged to report any practices which could compromise the integrity and security of examinations and assessments.

The school will:

- take all reasonable steps to prevent the occurrence of malpractice and maladministration during and after assessments have taken place.
- immediately inform the awarding bodies of any alleged, suspected or actual incidents of both malpractice and maladministration involving a candidate or a member of staff by completing JCQ Form M1.
- for suspected candidate malpractice and JCQ Form M2 for notification of suspected malpractice/maladministration involving centre staff.
- on the request of the awarding body and in accordance with the JCQ publication Suspected Malpractice: Policies and Procedures.
- gather evidence of any instances of alleged or suspected malpractice or maladministration and submit this in a timely manner.

<https://www.jcq.org.uk/exams-office/malpractice/>

The whistleblower is defined as a person who reports an actual or potential wrongdoing and is protected by the Public Interest Disclosure Act 1998, providing they are acting in the public interest.

### How to raise a concern

Concerns should be raised with the member of SLT responsible for examinations, should this not be appropriate the allegation must be made directly to the deputy CEO of MNSP Trust.

### Examples of malpractice (this list is not exhaustive)

- Failure to comply with exam regulations as set out by JCQ and its awarding bodies
- security breaches involving examination material.
- Conduct of centre staff which undermines the integrity of the examination or assessment.
- Disadvantaging a student by not providing access to appropriate access arrangements or creating an advantage for a student by providing an access arrangement where the required evidence does not support it.
- Accessing an exam paper prior to the exam date and time to aid teaching and learning.
- Abuse of authority

## Access Arrangement Policy

The intention of an access arrangement is to meet the specific needs of a student without affecting the integrity of the assessment. Access arrangements are agreed in advance prior to an assessment and allow a student with specific needs, such as a disability, special educational needs or an injury to access the assessment and show what they know without changing the demands of the assessments.

The head of centre will ensure:

- they appoint a SENCo or an equivalent member of staff to coordinate the access arrangements process within the centre and determine appropriate arrangements for candidates with learning difficulties and disabilities, candidates for whom English is an additional language and those with a temporary illness or injury.
- that learners have the correct information and advice on their selected qualifications in an accessible format and that the qualification meets their needs.
- that the SENCo undertakes the necessary and appropriate steps to gather a picture of need and demonstrate a normal way of working. The centre must lead on the assessment process. The candidate must be assessed by the centre's appointed assessor.
- that there is a written process in place to check the qualifications of their assessor and that the correct procedures are followed as detailed in Chapter 7 of the JCQ Arrangements and Reasonable Adjustments.

Adjustments that can be considered are detailed in the '*Access Arrangements, Reasonable Adjustments and Special Considerations*'. These will be dependent on the needs of the student and must reflect their usual way of working at the school. Adjustments will be considered if they are reasonable, effective and the likely impact of the adjustment on the student and other students sitting examinations. Adjustments will not be approved if there are unreasonable costs or timeframes and affect the integrity or security of the assessment.

### Purpose of the policy

The purpose of this policy is to confirm that the school has a written record which clearly shows the centre is leading on the access arrangements process and:

- is complying with its obligation to identify the need for, request and implement access arrangements (GR 5.4)
- has a written process in place to not only check the qualification(s) of its assessor(s) but that the correct procedures are followed as in Chapter 7 of the **JCQ document Access Arrangements and Reasonable Adjustments (GR 5.4)**
- Schools will make all decisions on appropriate access arrangements for their candidates. Where professionals from other organisations have given advice, they cannot make the decision for the school. This is because they will not have a working knowledge of an individual candidate's needs and how their difficulties impact in the classroom and/or in timed assessments. It is the responsibility of the SENCo to make appropriate and informed decisions based on the JCQ regulations. (AA 4.2)
- The principles for schools to consider include:

The purpose of an access arrangement/reasonable adjustment is to ensure, where possible, that barriers to assessment are removed for a disabled candidate preventing them from being placed at a substantial disadvantage due to persistent and significant difficulties.

- The integrity of the assessment is maintained, whilst at the same time providing access to assessments for a disabled candidate (AA 4.2)
- Although access arrangements are intended to allow access to assessments, they cannot be granted where they will compromise the assessment object
- Students may not require the same access arrangements or adjustments for every subject. Access arrangements must be considered on a subject by subject basis.
- Access arrangements should be processed at the start of the course and must always be approved prior to an assessment or examination.
- Access arrangements must support the usual way of working within the centre.
- Students must have prior access to the arrangement prior to their first examination.

### **The Assessment Process**

- The SENCO will keep an ongoing record of special educational needs and access arrangements that are used by the students as part of their usual way of working. Students identified as requiring assessment through this process will be listed and tested by an appropriately qualified assessor appointment by the Head of Centre in accordance with the JCQ requirements. Specific arrangements can be trialled during years 7-9. However students can only be formally tested from Year 9 term 6 onwards.
- A candidate's access arrangements requirement is determined by the SENCo.
- Ensuring there is appropriate evidence for a candidates access arrangement is the responsibility of the SENCo
- Submitting completed access arrangement applications by the awarding bodies deadline is the responsibility of the SENCo in conjunction with the Exams Officer.
- Rooming for access arrangement candidates will be arranged by the Exams Officer.
- Invigilation and support for access arrangement candidates, as defined in the JCQ access arrangements regulations, will be organised by the Exams Officer with the support of the SEN support staff.
- A copy of the assessors qualifications will be kept on file. This must be evidence of successful completion of a post-graduate course in individual specialist assessment at or equivalent to Level 7 or a printout of a screenshot of HCPC or SASC registration is held on file for inspection purposes to evidence that the assessor is suitably qualified. All assessments will be carried out by the assessor and assessors will not sign off assessments carried out by anyone else.
- Privately commissioned reports cannot be used to award access arrangements or used to process an access arrangement online.
- Guidelines for the assessment of the candidates learning difficulties by an assessor will be followed and Form 8 (JCQ/AA/LD - Profile of Learning Difficulties) will be completed.
- Students with a diagnosis will have arrangements put in place from the date of diagnosis.

## Reviews of marking – centre assessed marks

### (GCE coursework, GCE and GCSE non-examination assessments, Project qualifications)

[Centre Name] is committed to ensuring that whenever its staff mark candidates' work this is done fairly, consistently and in accordance with the awarding body's specification and subject-specific associated documents.

Candidates' work will be marked by staff who have appropriate knowledge, understanding and skill, and who have been trained in this activity. [Centre Name] is committed to ensuring that work produced by candidates is authenticated in line with the requirements of the awarding body. Where more than one subject teacher/tutor is involved in marking candidates' work, internal moderation and standardisation will ensure consistency of marking.

1. [Centre Name] will ensure that candidates are informed of their centre assessed marks so that they may request a review of the centre's marking before marks are submitted to the awarding body.
2. [Centre Name] will inform candidates that they may request copies of materials to assist them in considering whether to request a review of the centre's marking of the assessment.
3. [Centre Name] will, having received a request for materials, promptly make them available to the candidate. This will either be the originals viewed under supervised conditions or copies.
4. [Centre Name] will provide candidates with sufficient time, normally at least five working days, to allow them to review copies of materials and reach a decision.
5. [Centre Name] will provide a clear deadline for candidates to submit a request for a review of the centre's marking. Requests will not be accepted after this deadline. Requests **must** be made in writing and candidates **must** explain on what grounds they wish to request a review.
6. [Centre Name] will allow sufficient time for the review to be carried out, to make any necessary changes to marks and to inform the candidate of the outcome, all before the awarding body's deadline for the submission of marks.
7. [Centre Name] will ensure that the review of marking is conducted by an assessor who has appropriate competence, has had no previous involvement in the assessment of that candidate for the component in question and has no personal interest in the outcome of the review.
8. [Centre Name] will instruct the reviewer to ensure that the candidate's mark is consistent with the standard set by the centre.
9. [Centre Name] will inform the candidate in writing of the outcome of the review of the centre's marking.
10. The outcome of the review of the centre's marking will be made known to the head of centre. A written record of the review will be kept and made available to the awarding body upon request. The centre will inform the awarding body if it does not accept the outcome of a review.

The moderation process carried out by the awarding body may result in a mark change, either upwards or downwards, even after an internal review. The internal review process is in place to ensure consistency of marking within the centre, whereas moderation by the awarding body ensures that the centre's marking is in line with national standards. The mark submitted to the awarding body is subject to change and should therefore be considered provisional.
