

BEECHEN CLIFF

Home School Agreement

Our vision is to enable our pupils and students to achieve their aspirations and become well-rounded, confident and compassionate individuals who go on to live fulfilled lives and make a positive contribution to society.

Our Core Values are:

Aspiration - Working hard and trying my best at all times, both within and beyond the classroom. Aiming high and challenging myself to fulfil my potential.

Compassion - Showing consideration to others, improving the lives of those around me, and doing the right thing even when no one else is looking. Recognising my own self-worth.

Independence - Organising and taking responsibility for myself, developing my resilience and having the courage to do the right thing.

Respect - Showing an understanding of the feelings, wishes and rights of others through words and actions and by valuing equality and diversity within the community.

In developing these Core Values we recognise the vital role played by parents and carers. The School will continue to work with parents and carers in ensuring that pupils develop and display these values within and beyond the School.

In seeking to develop these values, the School promotes a broad, balanced and forward-looking curriculum, which is built on the foundation of high academic standards and gives the opportunity for all pupils to achieve. We promote a compassionate environment, a culture of equality and a sense of pride in oneself and the School. We expect pupils to embrace our Core Values, and follow the school rules. We insist on good manners at all times, respect for others and their property, and the wearing of the full School uniform. We reject all forms of negative peer pressure and all forms of bullying, harassment or discrimination. We will seek pupils' views in any discussions related to them.

This Agreement formalises the existing partnership between home and School by identifying the specific roles of the School, parent/carer and pupil and thus provides a framework to work effectively together.
